LAB
WEBSITE

<http://www.mohanmurthy.com/teaching/eth-ph2>
All exercise materials will be posted here.

CLASS
STRUCTURE

1. ~1100-1140: Micro lecture - Re-cap of concepts and material
2. 1140-1150: Break
3. 1150-1230: Problem hints / discuss issues.

OTHER
REMARKS

- Even though a PSet grade doesn't mean anything (they're not a part of your final grade in any way), I will grade them because that's how you know how you're doing.
- **Please sign the attendance sheet
AND (preferably) / OR
Submit a PSet**
Otherwise I don't know you were even here.
- I collect the PSet 1 week later. So you need to do the PSets every week (no exceptions).
- Try to attend the department colloquiums, I will try to make a note of them every exercise class.

Finally do the PSets every week!
Do not wait for summer to prepare.
